

Providing check by phone, by fax and securely online services and software since 1996!

VcheckSolutions.Com

Since 1996, our checks by phone, checks by FAX, or checks by Internet software system has been used by thousands of insurance agencies, government agencies, and businesses - small and large alike. There is **never a per check, per transaction or discount fee!**

Vcheck is NOT an ACH (Automated Clearing House) or EFT (Electronic Funds Transfer) system. In fact, our Vcheck | Echeck system is faster, much less expensive and puts you in direct control of your incoming checks!

Standard Features

- E-Sign Electronic Signature Capture.
- Optional Service Fee can be added.
- Completely customize the Vcheck form including your company logo.
- Bank info pulled from ABA database.
- Create unique payment links.
- Receipts automatically emailed to your customers after payment.

No More “The check is in the mail.”

Checks by Phone: Since Vcheck is not an ACH, you can still accept checks by phone from your customers and process a Remotely Created Check on their behalf.

Checks by FAX: You can also have your customers FAX you a signed copy of a check (for verification) and then re-create the check to print and deposit instantly.

Checks Online: We provide a custom link you can put on your website so customers can complete and submit a check payment online. Our secure form even has Electronic Signature Capture as an option. We even have a mobile version of the check submission form that can be used via any smart phone or tablet.

Its as simple as 1, 2, 3 :

1. Your customer enters their check data using the secure online form or you enter it for them if received by phone or fax.
2. You will immediately receive an email when a new check has been created. You login to your account and print out a fully legal and negotiable check.
3. You deposit the check into your checking account in the same manner you normally do – physically, via bank scanner or mobile deposit.

The check will be processed in the same amount of time as all your other checks.

Desktop, Tablet or Smartphone.

Both the secure Vcheck form and the Merchant Admin Console are fully responsive – meaning they automatically reconfigure themselves based the device and screen size of the browser.

Optional Upgrades = Complete Solution

Recurring Payments / Repeat Customers. Accept and manage monthly recurring payments. This option also allows you to create random, on demand checks for repeat customers using only the new check number, amount and memo.

Multiple Payees. Accept checks for multiple payees. Additional cost: \$49.95 per year. Copy of business license and phone verification required.

Additional Users/Admins. Allows your company to have multiple Admin with unique usernames and passwords, along with different permissions within the system.

Check Batching. Instead of opening and printing each check file individually, this upgrade allows you to batch any number of new checks together as a single, printable PDF file with 3 different checks per page of check stock.

There are many additional upgrades available. Go to VcheckSolutions.com and click on the Optional Upgrades button on the left Nav Bar.

A Small Sample of Customer Endorsements :

"Virtual Check has been a tremendous success for us, and it is serving the people of Los Angeles County very well ... I wholeheartedly endorse it! "

Mark Saladino, Treasurer and Tax Collector of Los Angeles County

"How often does a truly efficient - as advertised - effective and inexpensive product come along? Not very often. But one of my colleagues introduced me to Vcheck after she had been very satisfied with it. Thank goodness she did. I don't often promote businesses or services, but this product actually delivers what it says it will. I was amazed at its comprehensive content and its user friendly capabilities. I highly recommend this product to ANYONE in this industry."

N. Walker, American Insurance Professionals, LLC

"Our agency has used this product for over 12 years and love it, I have shared it many times with other agencies and our clients love your product. The biggest statement that I can make for our agency is that we have a -0- accounts receivable due to your product and I thank you for my agencies success. It is always nice to find a product that works and a company that values my success in business....keep up the good work."

N. Sattler, CBIZ Sattler Insurance Agency

"It allows our accounting department to process cash with minimal float-time. Maintains a current zero account receivables balance."

R. Schneider, Arrowhead Wholesale Insurance

"V-Check is a lifesaver. It's resulted in lots of extra business"

J. Morqan, Quality Insurance Services
